SUMMARY

UI/UX Designer with a passion for creating meaningful, user-centered digital experiences. Skilled in wireframing, prototyping, and interface design using tools like Figma. Experienced in turning ideas into polished, real-world projects. Known for a strong eye for detail, creativity, and a drive to design with purpose.

WORK EXPERIENCE

UI / UX Trainee, Codxi

Mar 2025- Present

- Designed the Subscription Management interface for both system providers and client users, focusing on clarity, role-based interactions, and ease of use.
- Created user-friendly screens to manage plan upgrades, user limits, payment methods, and invoices.
- Ensured a seamless experience for handling billing, transaction history, and real-time subscription status across both roles.
- Collaborated closely with the development team to align design solutions with technical feasibility and implementation requirements.

VP Assistant, Deutschland Technology Company

Dec 2021- May 2025

- Acted as the main point of contact between the company and the external web design agency during the development of two company websites.
 - Coordinated schedules, meetings, and communications, ensuring efficient workflow and time management
 - Collaborated across departments, gaining insights into team dynamics and business operations
 - Managed sensitive information with discretion and professionalism
 - Developed strong organizational and problem-solving skills in a fast-paced environment
 - Supported projects that required attention to detail, clear communication, and adaptability
-
